PS2. Brief Description of the Programme

The FdA Business and Management has been designed in partnership with a diverse range of organisations which contribute to the economy of Jersey and with University of Plymouth. The modules studied gives students knowledge and understanding of a wide range of subjects which impact on and influence Business and Management practices relevant to the Jersey economy and the wider business sector. On completing this programme students will have developed the personal, professional and academic skills needed to embark on a successful career in business or management.

To develop the personal and professional skills required, students must undertake extensive periods of Work-based Learning placements in business organisations which operate in Jersey. Work-based Learning placements not only allow the development of personal and professional skills but support student learning as academic theory can be linked to work practices. These paid placements are an integral part of the course and allow students to earn while they learn.

PS5. Programme Aims

The programme will deliver:

A1: An informative and challenging programme of study for those wishing to work in business organisations and management. It will develop a detailed knowledge and understanding of business organisations, their systems and processes, and the changing environment in which they operate. It also allows students to understand the theories, models, frameworks and roles of management and the processes for decision making in Business and Management.

A2: The development of cognitive and intellectual skills to evaluate diverse business organisations, their performance, systems, and staff using a range of analytical, problem solving and planning tools.

A3: Enable students to build a range of transferable skills including communication skills ensuring the ability to communicate effectively using both

qualitative and quantitative information through a range of media used in businesses.

A4: Skills in the development of reflection, professional development and personal development planning to ensure individuals can work under their own initiative or as part of a team and engage with life-long learning, career planning and career development.

A5: Customer service skills, IT Skills, numerical skills, literacy-based skills and a range of industry skills used in Business and Management.

PS6. Programme Intended Learning Outcomes (ILO)

By the end of this programme the student will be able to:

ILO1: Demonstrate knowledge and understanding of a range of business organisations, their systems and processes, the changing environment in which they operate including, the regulations, organisation, underlying concepts, principles and theories which underpin businesses. To understand the theories, models, frameworks and roles of management and the processes for decision making in Business and Management.

ILO2: Analyse, appraise and evaluate qualitative data and quantitative information. To develop argument underpinning sound judgment in accordance with the principles, theories and best practice models relevant to Business and Management in different contexts, particularly in relation to working practice.

ILO3: Work as an effective member of staff; able to work as part of a team, communicate effectively, take responsibility, manage their time effectively and meet deadlines.

ILO4: Reflect and evaluate their own experience enabling them to investigate and analyse career opportunities identifying the limits of their knowledge and understanding and enabling them to engage fully in personal development and career planning.

ILO5: To use professional and practical skills relevant to a range of businesses services, such as customer service skills, IT skills (both generic and specific to Business and Management). To use literacy skills and numeracy skills in academic study and in employment.

PS7. Distinctive Features

This programme is distinct in several aspects: firstly, the curriculum is designed in partnership with local businesses to ensure its relevance and currency; secondly, delivery of the programme is by lecturers with experience in their business sectors; thirdly, the programme allows students to develop work-place skills and their professional network through extended periods of work-placement which also allows students to apply what they learn in the classroom to a real-world context. The programme benefits from the close working relationships that the programme team have developed with a range of organisations across the Jersey economy. The key features of WBL are:

Help in preparation of CV and interview skills.

The opportunity to meet organisations prior to formal interview.

Facilitation of a placement with a partner organisation through a supported but competitive interview process

Organisational mentor who supports the student while they are in the placement organisation.

Academic and tutorial support of the student by a programme tutor visiting the student while they are on placement in the organisation.

A payment of £300 per week while the student is in placement if the organisation is happy with their conduct and performance in placement.

Extensive period spent in placement, up to 20 weeks over two academic years.

Students are also offered the opportunity of taking part in an overseas study trip however this is dependent on the number of students wishing to participate.

PS8. Student Numbers

Minimum student numbers per stage = 6

Target student numbers per stage = 12

Maximum student numbers per stage = 15

PS9. Progression Route(s)

PS11. Academic Standards and Quality Enhancement

The Programme Leader/Manager (or other descriptor) leads the Programme Committee in the following of University of Plymouth's annual programme monitoring process (APM), as titled at the time of approval. APM culminates in the production, maintenance and employment of a programme level Action Plan, which evidences appropriate management of the programme in terms of quality and standards. Any formally agreed change to this process will continue to be followed by the Programme Leader/Manager (or other descriptor) and their Programme Committee.

Elements of this process include engaging with stakeholders. For this definitive document it is important to define:

Subject External Examiner(s):

The list below indicates the modules allocated to the Business and Management External Examiner, Dr Zoe Dann. Zoe.dann@port.ac.uk The other modules are allocated to the external examiner for the FdA Financial Services, Professor Steve Letza, sletza@bournemouth.ac.uk New and revised modules will be allocated appropriately.

An explanation of this map:

Work Based Learning is fundamental to the learning experience of the FdA Business and Management. Preparation for placement including research, CV preparation, interviews with placement organisations, Work etiquette, WBL, mentoring within the organisation, programme support are all provided through the professional practice module. Assessment is focussed around reflective work and the student's engagement with the placement organisation. The work-placements are designed to give students sufficient exposure to industry in order to gain relevant industry skills and – potentially – qualifications. Students are expected to complete the full amount of work-based learning in order to achieve their foundation degree. Under exceptional circumstances, cases may be considered individually. The responsibility for securing and maintaining a work placement is the student's; however, the course team will provide full support. This means that: students on FdA Business and Management and FdA Financial Services must normally complete at least 40 days of work-based learning in stage one; and 20 in stage two in order to achieve their foundation degree.
