

Help with writing your Personal Statement for 6th Form

What to include about yourself, and some do's and don'ts on how to write it.

1. Why are you applying for your chosen course?

Explain why you want to do your chosen course(s). For example, someone who wanted to work with animals might write 'I would like to study animal management as I am passionate about looking after animals. I already look after two dogs and it will help me in my future career plans.'

You can write about anything you've read about the course(s) that you find interesting and would like to find out more about.

2.

Why does this course interest you?

3.

Why do you think you are suitable for the course(s)?

In this section, you can write about any experiences you have had that are related to the course(s), or any skills you've learnt that might help you. For example, if you have done any related volunteering or work experience, or if you have a part-time job such as babysitting, which shows more general strengths such as responsibility or commitment.

Let us know how much you enjoy a subject by writing about it and what you found really interesting or you were good at.

4.

Do your current studies relate to the subject you have chosen? If so, how?

Dos and don'ts when writing a personal statement

DO

be enthusiastic – if you show your interest in the course, it will help your application.

DO

ask people that you trust, like your teacher/adviser or parent/carer to read through what you have written and give you feedback.

DON'T

exaggerate – you might be asked about what you have written if you attend an interview with the Admissions team.

DON'T

leave it until the last minute – it's a good idea to give yourself time to think about what you write to make sure you don't forget anything.
